Securing Buckles***

***Mega Strap*** is our co-extruded polyester strapping made from high tenacity polyester textile fibres.

- as strong as steel
- no sharp edges that could damage your products
- cannot rust or rot
- resistant to all weather conditions and U.V.
- high linear and system strengths
- retensionable
- very high capacity to absorb shocks during transport high retained tension due to its elastic elongation and "memory" even on contracting packages
- fast and easy to handle
- high cross-directional strength

## Accessories & technical data:

Reference	Width	Breaking strength	Length per coil	Coils per box	Boxes per pallet	Buckles type
GW 40 KF	13 mm	300 daN	1.100 m	2 coils	24 boxes	B4
GW 50 KF	16 mm	425 daN	850 m	2 coils	24 boxes	B5
GW 55 KF	16 mm	550 daN	600 m	2 coils	24 boxes	B5
GW 60 KF	19 mm	475 daN	600 m	2 coils	24 boxes	B6
GW 65 KF	19 mm	625 daN	500 m	2 coils	24 boxes	B6
GW 85 KF	25 mm	785 daN	500 m	2 coils	24 boxes	B8
GW 86 KF	25 mm	925 daN	450 m	2 coils	24 boxes	B8
GW 105 KF 8	32 mm	1.500 daN	300 m	2 coils	24 boxes	B10

**For Mega Strapping, we also supply you with the right accessories.**

### Mega Buckles

Galvanized buckles are used in combination with our polyester composite strapping, available in widths from 13 to 35 mm.

### Mega pallet Threader

### Mega Dispenser

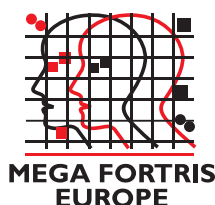

The Mega Strap dispensers are designed to ensure that our co-extruded polyester strapping (Composite) stays clean and in a perfect shape. Our dispensers are available in a mobile version with a large tray for buckles and tensioner, providing the user with a complete strapping system which can be easily used for most applications.

Because the optimal strapping to be used highly depends on the applications and local conditions, our team of international experts will be pleased to assist and advise you on the appropriate products for your application.

### Mega Tensioners

For every reference of Mega Strap we have the right tensioner suitable for strapping width up to 50 mm.
